durlax.official Durlax Durlax

we bring to you a new fashion trend in contemporary homes, encompassing any piece of furniture with a shiny and highly reflective, super smooth, polished finish. It looks stunning. Imagine replicating this look with just about any type of furniture- from bathroom cabinets, to glossy living room furniture, to elegant fitted wardrobes in the bedroom. It creates a fabulous contemporary look in any modern house, apartment, showroom, office restaurants, receptions, conference room, retail counters etc. This unique finish creates a smooth, clean, contemporary and minimalist feel in any home. It brightens up any room by reflecting light instead of absorbing it. By day, as long as there is some sunlight entering the house, your new glossy surfaces will keep the house feeling light and energetic. By night, it reflects artificial light provided by overhead lights and lamps. This adds another dimension to flat or dull spaces, and can completely change the look of a room. So go on, use these laminates and create your own masterpieces.

UV Stability / Weather Resistance

Free from all UV Stabilizer's which addresses environment issue's. Always ensure easy coloring and show's mechanical properties in everywhere. Elastomer keep its properties at low temperature, remedying plastic resin's shortcomings.

Chemical Resistance

It is highly solvent-resistant. It can be applied to a variety of purposes.

GENERAL USE & CARE GUIDE:

- DURLAX deco sheet's are designed for easy maintenance and durability. Follow these guidelines for optimal performance:
- 1. Stain Removal: for stubborn stains, use mild household glass cleaners like Colin. Gently wipe the surface with a non-abrasive cloth.
 - 2. Avoid Abrasive Cleaners: Refrain from using abrasive liquid cleaners, bleaches, or solvents, as they may harm the deco sheet surface. Clean with water and a non-abrasive cloth.
 - 3. Surface Recommendation: Glossy surface's are best suited for vertical applications.
 - 4. Thinner Usage: Do not apply thinner to deco sheets.

INSTALLATION INSTRUCTIONS:

- 1. Clean the dust particles from the surface of the substrate (plywood, MDF, chipboard) with a cloth, soft brush, sponge or sandpaper.
- 2. Apply the adhesive evenly with a brush, roller or adhesive spray on both the deco sheet and the substrate (plywood. MDF, chipboard).
- 3. When pressing on the deco sheet base (plywood, MDF, chipboard), use a soft-pressure roller or a normal pressing technique. Pressing must be done from the centre of the panel and moved to the sideline and corners of the panel
- 4. Make sure the laminate is sufficiently pressed for almost 24-30 hours to reach full bond strength.

LIMITED WARRANTY:

DURLAX Products undergo rigorous testing to ensure they are reasonably free of defects. When used and fabricated correctly, they will comply with applicable manufacturing specifications within realistic deviations. Prior to installation, we advise customers to thoroughly inspect products. The warranty excludes defects or non-compliance due to:

- Improper handling, transportation, or storage of deco sheet's
 - Incorrect installation or unintended usage
 - Lack of maintenance or exposure to high temperatures
 - Unauthorized alterations or outdoor applications
 - Exchanges are provided under reasonable circumstances.
 - This brochure serves as a presentation guide, with actual colors potentially differing.
- Why Polymer Laminates are the Best Choice compare to other laminates?
